

# rabbit chords \* *Mem songs for ukulele*

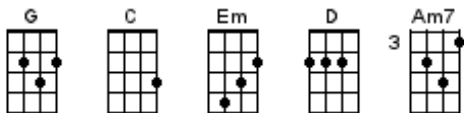

## Pacific Street

(Dan Messé)

Ukulele version

This song is in the key of G#, so to keep things simple (and to allow folks to play along with the recording), I've chorded this out for a uke tuned up a half-step, or using a uke capo on the first fret. i.e. G# | C# | F | Bb

If you're not playing along, there's probably no need for the retune, and you can just play it in the key of G as chorded here.

G C Em D  
Let's go out walking, I know where to meet  
G D C D  
The corner of Pacific Street  
G C Em D  
Because I feel restless and I just can't sleep  
G D C D  
I need to show you something

Am7 Em  
See where we stood  
D C  
There are oceans in our neighbourhood  
G C Em D Em > D > C > D  
And for leaving things they're just as good

Well I don't know you except for the way  
A traveller knows a traveller  
The way a station can tempt you to stay  
And spend some time inside it

Stay where we are  
We'll wash up at the corner bar  
Because leaving things is just too hard for me

Stay where we are  
Washed up in some corner bar  
But I swear I've never been this far before  
I swear I've never been this far before  
No I swear I've never been this far before
